

## SUPPRESSOR 2218

### GENERAL PURPOSE DEFOAMER/ANTIFOAM

Suppressor 2218 is a mineral oil based foam control agent designed to deliver effective control of foam problems at an efficient level.

The product works very well as general purpose foam control agent in Inks, Coatings, adhesives and a variety of other media

<b>Appearance</b>	<b>Opaque, Tan Liquid</b>
<b>Specific Gravity @ 25°C</b>	<b>0.91</b>
<b>Flash Point, TCC (°F)</b>	<b>&gt;310</b>
<b>Solubility in Water</b>	<b>Dispersible</b>

#### **Typical Applications**

- Ink and Coatings
- Adhesives & Glues
- Paints
- General Purpose

In industrial processing, Suppressor 2218 should be used as received or diluted. Water dilutions should be stirred frequently to ensure maximum stability and efficiency. When used in ink, Suppressor 2218 should be used at dosage rates of 0.1 to 0.3% of the formula weight.
